## PROFILE

IT professional with 3+ years of experience across IT support, Microsoft 365 and Entra ID administration, cyber security and automation. Experienced in troubleshooting Windows, hardware and network issues, managing user accounts, groups, roles and permissions, Conditional Access and MFA, monitoring and responding to security alerts, managing domains, DNS and web hosting and automating administration with PowerShell and Microsoft Graph API. Holds a Bachelor of Information Technology (Networking and Cybersecurity) from Flinders University and Microsoft SC-900 certification, with working knowledge of ITIL 4 and Intune and familiarity with ServiceNow. Known for clear documentation, jargon-free communication and taking full ownership of outcomes. Now looking to grow within a collaborative ICT team.

## WORK EXPERIENCE

### ADHD Foundation — IT Operations & Security Analyst

***December 2025 – Present | Remote, Adelaide***

- Administer and support Microsoft 365, Entra ID, Exchange Online and Teams, managing user accounts, groups, roles, licences, mailbox provisioning, shared mailboxes and access permissions
- Led a full Entra ID identity governance overhaul, removing dormant accounts with excessive privileges including former Global Administrators and designing an RBAC model enforcing least privilege
- Monitor Microsoft Defender and Entra ID sign-in alerts daily. Contained two brute force attempts by locking down the targeted accounts and deploying geofencing Conditional Access policies
- Led an MFA modernisation project migrating 49 users to Microsoft Authenticator and the modern Authentication Methods policy using Microsoft Graph PowerShell, then resolved a legacy MFA conflict with Conditional Access
- Troubleshot Bitrix24 CRM integration issues after Conditional Access changes, re-linking accounts and syncing permissions. Embedded Microsoft Teams into the CRM and delivered a two-phase security project with a tenant-wide 2FA rollout
- Built PowerShell scripts using the Microsoft Graph API with certificate-based app-only authentication, scheduled through Task Scheduler to produce monthly identity audit reports
- Resolved SPF, DKIM and DMARC failures by coordinating with an external hosting provider. Enabled first contact safety tips in Microsoft Defender after a Director impersonation phishing attempt
- Authored an IT Operations Handbook documenting system configurations and standardised SOPs. Lead IT projects within a small team while supervising an intern and reporting progress to the Board

### Thapovanam — Website Developer

***2026 – Present | Volunteer, Adelaide***

- Built a not-for-profit organisation's WordPress website from scratch across 25+ pages in Elementor Pro, setting up hosting, registering the domain and configuring DNS

- Manage the organisation's domains, transferring them between registrars and migrating the entire website and hosting to a new provider with DNS updated for a smooth cutover
- Resolved a site outage caused by an Elementor version conflict by enabling debug mode in wp-config.php, clearing the server cache and regenerating CSS

### Oceania Impex — Assistant Procurement Officer

***January 2022 – May 2025 | On-site, Adelaide***

- Provided Level 1 IT support to staff on site and remotely, diagnosing hardware faults, updating drivers and resolving Windows and application issues
- Led a company-wide device sanitisation initiative, securely wiping and factory resetting laptops and desktops before resale or redeployment
- Self-taught HTML and cPanel to manage the live company website, performing code edits and regular backups while maintaining 100% uptime
- Managed full-cycle procurement workflows in Excel, maintaining accurate records and coordinating directly with suppliers and clients

### Airtasker — Freelance IT Administrator

***September 2023 – January 2024 | On-site, Adelaide***

- Diagnosed and resolved Windows 10/11, iOS, driver, printer, application and home network issues for residential clients on site
- Explained technical issues in clear, jargon-free language tailored to each client. Trained clients on AI tools and device security best practices

---
